Job Description

ELECTRICAL ASSEMBLY TECHNICIAN

Company:

Kays Engineering is a machine tool builder specializing in deep-hole drilling equipment utilizing the Gundrilling, BTA, and Ejector processes. The company manufactures and markets the DeHoff and Eldorado brands of deep-hole drilling machines with over 2500 units in service worldwide. For additional information visit our website at www.kays-dehoff.com.

Requirements:

- High School Diploma
- Prefer 2-year technical school degree or equivalent training
- Ability to read and interpret electrical schematics and mechanical drawings
- Experience with using precision measurement equipment
- Provide own hand tools and measurement equipment or be willing to purchase them within a specified time
- Ability to work as a team member, cooperative with peers and supervisors

Duties:

- Assemble electrical components of DeHoff and Eldorado precision deep-hole drilling machines and other automated equipment
- Debug of electrical and software systems on equipment
- Provide sketches to supervisors of work to be performed on electrical components in other departments (weld, machine shop, etc.)
- Provide red-line drawing changes for discrepancies or alterations, if needed
- Provide maintenance support on all equipment, machines, and the facility as required
- Keep work area and facility clean and organized
- Perform additional tasks as required by Assembly Department Supervisor
